Supports the use of additional components and themes that customize its appearance and make it more pleasant internet. Preload technology. Low data consumption and greater loading speed one of the advantages of this development compared to other web browsers such as Chrome, Opera or Microsoft Edge, it offers less data consumption thanks to the different technologies that implements. It is possible to comfortably import data, bookmarks, cookies and other information. The browser download offers everything you expect from a desktop browser or laptop. It is also beneficial in areas with slow connection speed. Are advanced functionality available? Unlike other web browsers, this comes with a wide range of advanced features. Born in China, and also known as UCWEB, it managed to win on user loads, taking a giant jump from our iPhone and iPad, or Android smartphones or tablets in APK format, to our PC. Although it does not have a large background on Windows, it is a development that captures the eye due to its possibilities of customization, its stability and scarce resources must work properly. Sometimes publishers take some time to make this information available, so please check in a few days to see if it was updated. Can help? If you have some information from Changelog you can share with us, we would like to hear from you! Head to our debut page and let us know. Double Triple clicks and other mouse controls, you can customize on-screen actions and create custom custom customs UC Browser is a powerful, feature-packed, and robust web browser for Windows desktops and laptops. On the other, since 2006 it has been developing its own technology to compress and render to the maximum extent all the traffic on its own servers. Additionally, the software comes with multiple productive tools, such as smart file manager, cloud sync, night mode, etc. Due to the reliability and speed, it has been able to capture a loyal fanbase. The easy-to-use and sleek interface allow you to navigate through multiple features without any issues. If you are not too concerned about these matters, UC Browser is undoubtedly a power-packed way to surf the internet. A good choice over competing platforms. For quite some time, UC Browser has been one of the leading choices among internet browsers for Windows computers. Moreover, since the platform is Chromium-based, it's easy to transition from Mozilla Firefox or Google Chrome to this web browser. Synchronize open tabs and bookmarks among devices. All the toolbar buttons have been properly categorized, and let you explore the program with ease. Last but not least, UC Browser comes with several advanced features, such as Video Grabber, Night Mode, Smart File Manager, Cloud Sync, Pop-out Video, and more. Support for different search engines. The latest version utilizes hardware acceleration technology for laptops but requires a good amount of RAM. Built-in download manager. For newer laptops, this shouldn't be a concern. There's also a full-download manager, which can be quite useful for saving multiple files on the system. For instance, tabbed browsing lets you visit multiple pages quickly.
